

## **“Ultra-flo” Spray Hose**

**Defend your work in the booth and take your air system  
into the future with Tsunami Ultra-Flo technology!**

### **Why should you use the Tsunami Ultra-Flo Spray Hose?**

- Engineered for high temperature exposure
- Proprietary internal coating prevents contamination
- Advanced engineering allows hose to lay flat - not prone to coil
- Build in anti-static strip - reduces static build-up
- Extremely lightweight – reduces fatigue
- Technology extends hose life – replace less often
- Manufactured from high quality materials!

### **Available in multiple sizes!**

**P/Ns**

**21999-0495 5’  
21999-0496 15’  
21999-0505 25’  
21999-0449 35’  
21999-0450 50’**

### **ANTI STATIC STRIP**

- Eliminates static build-up
- Best choice for all tool applications
